OUR BENEFITS

- **Innovative Design:** Combines aluminum alloy frames with wrought iron, preserving the modular construction benefits of aluminum alloy tents while adding exquisite and elegant aesthetics.
- **Weather Resistance:** The aluminum alloy tent's inherent weather resistance is a significant advantage of this structure.
- **Wind Resistant:** The Shelter Marquee Tent is manufactured to withstand wind load up to 120km/h (75mph).
- **Modular Extensions:** The structure allows for unlimited expansion by adding modular extensions in 5.00m increments.
- **Variety of Accessories:** An extensive range of accessories is available, including various walls, doors, and interior facilities.
- **Compliance with International Standards:** The covers are supplied using the latest in low wick, anti-fungicide high gloss white, flame retardant translucent or Opaque PVC in accordance to international standards including DIN 4102 B1, NFPA 701.
